

Make Toll Free Calls from Mexico

You cannot make toll free numbers, 800, 888, etc calls in Mexico. To connect with those numbers you need to change to a different prefix.

Depending on your cell plan, you may have to pay for the call. With AT&T's Viva Mexico plan, the calls have been free for us in 2011, who knows down the road.

<u>US Free Prefix</u>	<u>Number to use in Mexico</u>
